

Products and Services

- **Building construction (Residential and Industrial)**
(New works, alterations and additions)
- **Renovations** (painting, ceilings, plumbing etc.)
- **Roof leaks** (waterproofing cold lay and hot seal)
- **Civil works** (Car Parks, driveways, tarmac, security walling)
- **Concrete works (base stations, culvert, civils)**
- **Formwork hire and Erection**

Civil construction, building, renovations remains the company's primary service. Nearly two-thirds of the company's turnover has come from these various projects over the years including experience from house and building renovations to the building of concrete base stations for cellular towers to manufacture and laying of block paving

Safety is not Negotiable...

The company follows stringent safety standards and does everything possible to ensure that its employees are taken care of. Unsafe acts and unsafe conditions are not tolerated and are eradicated whenever they should happen. All site staff undergoes safety induction at the inception of a contract and each member is issued with all the right PPE (personal protection equipment).

A Unique & Transparent way of doing Business...

L B Construction is a rather unique construction company and the quality of its work sets it aside from others. The company employs an open book policy in which each quotation is open to discussion with the client.

In this way, the client can satisfy themselves that the work being quoted for is what was anticipated and no unnecessary extras are being added.

This is truly transparent as the client sees the details of the quotation.

The company feels that this is just one way that it can show the extent to which it adds value.

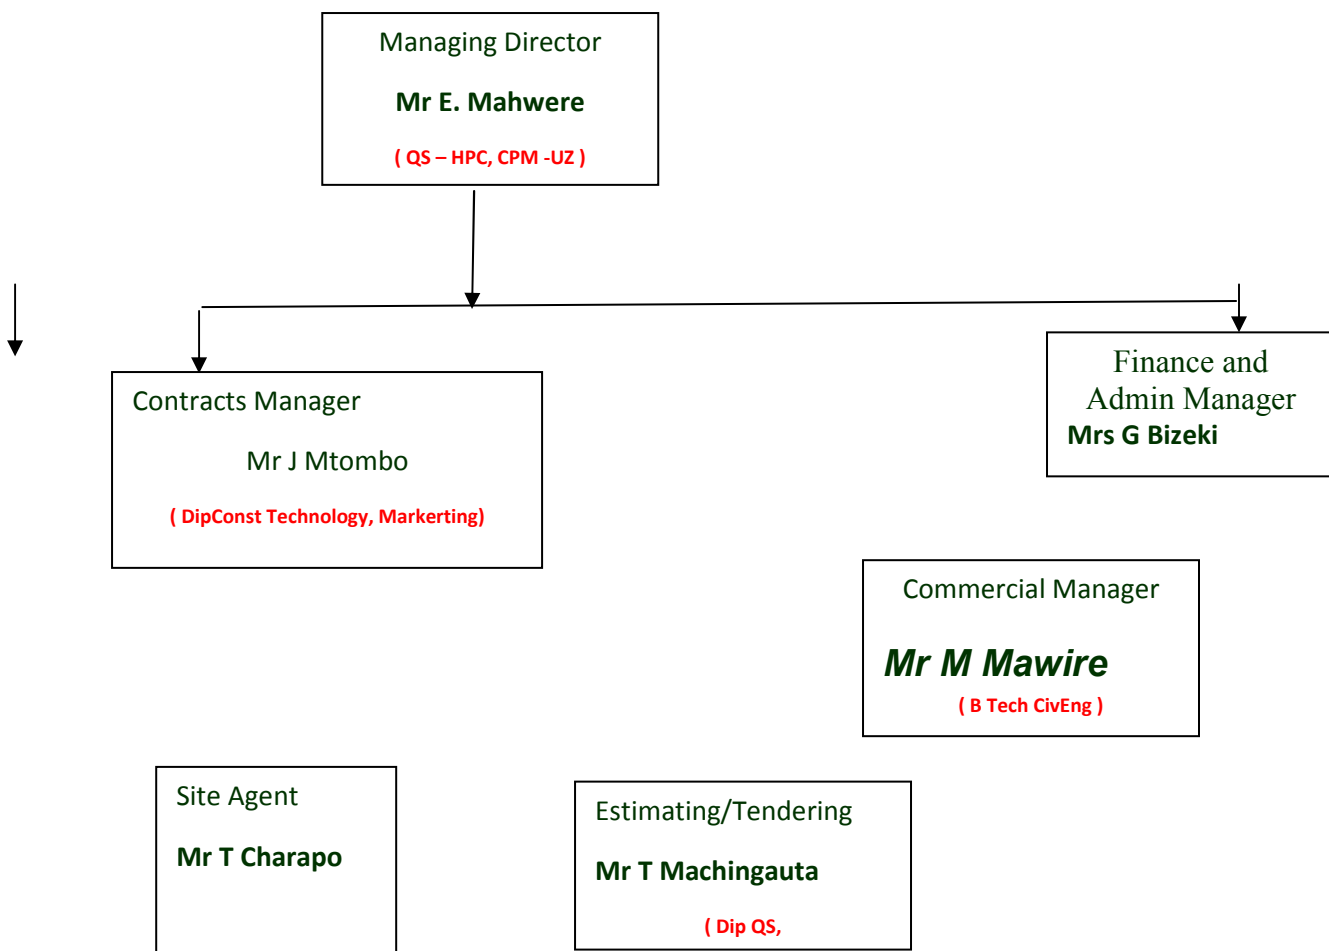

Resources...

L B Construction is equipped to take on large and small projects quite easily, as it has and is in the process of building up an array of good equipment, this stands the company in good stead to provide the services of a professional civil construction company.

Quality at all Costs...

The company is strives in customer satisfaction and quality assurance. It strives, continuously, to provide exemplary services and products to its clients and does not compromise on service or the products it uses. The base stations, house renovations, culverts and paving that it has performed over the years will be there for many years to come as a testament to a company that delivers fine products and services
